

Understanding my data

When you use the automated **Download your data** tool, you will receive several files in JSON format. JSON stands for JavaScript Object Notation, and is a structured, commonly used format that is capable of being understood by both computers and human beings. You may download three different packages of data, either separately or all at once. The packages will include a copy of the following data (if applicable to you).

Account data

Data type	What's included
	<p>A summary of the playlists created or saved, and any songs saved, including:</p> <ol style="list-style-type: none">1. Name of playlist.2. Date the playlist was last modified.3.
